**USPA NEWS** - We know that Motivation in the Knowledge Age comes when People achieve Autonomy, Mastery, and a Sense of Purpose. Setting High Performance as your Baseline Expectation and giving Teams a Way to achieve it play directly into these Powerful Motivators. Expecting High Performance does not mean that you demand it. Expecting High Performance means that you simply know achieving it is more than Possible. Expecting High Performance means that you believe the Team can attain it, so you hold them to that expectation....

We know that Motivation in the Knowledge Age comes when People achieve Autonomy, Mastery, and a Sense of Purpose. Setting High Performance as your Baseline Expectation and giving Teams a Way to achieve it play directly into these Powerful Motivators. Expecting High Performance does not mean that you demand it. Expecting High Performance means that you simply know achieving it is more than Possible. Expecting High Performance means that you believe the Team can attain it, so you hold them to that expectation.... Two words, Agile and coaching, seem to be the most-used buzzwords of the Last Five Years or so. The way Things are progressing, they might be staying at the Top of the List for Decades.

In the context of software development, how quickly, lightly, easily, readily, and gracefully we respond to changes while developing software defines our agility.

Now, what is coaching ? :

- \* The art of facilitating the performance, learning, and development of another.
- \* Helping you do your best.
- \* Unlocking a person's potential to maximize their own performance.
- \* Coaching closes the gap between thinking about doing and doing.
- \* Coaching is about performing at your best through the individual and private assistance of someone who will challenge, stimulate, and guide you to keep growing.
- \* Coaching will assist a client in defining what they want, removing obstacles, setting goals, taking into account values and purpose, striving for balance and fulfillment

-) In a nutshell : Coaching is a Vehicle to transport a Client/Clients from where he/they is/are now in his/their life to where he/they wants/want to be.
