**USPA NEWS -** The United Nations Climate Change secretariat opened the call for applications for the 2016 Momentum for Change Awards today to showcase action and ambition as national governments work toward implementing last December's historic Paris Agreement.

The 2016 Momentum for Change Lighthouse Activities will recognize climate action that is already achieving real results in three key areas: action that fosters women's leadership, action that unlocks climate finance and action that uses ICT-enabled solutions. The winning activities will be recognized and celebrated during a series of special events in November at the UN Climate Change Conference in Marrakech, Morocco. The Momentum for Change Advisory Panel, made up of senior experts from various fields and countries, will select the 2016 Lighthouse Activities. The panel is part of the secretariat's Momentum for Change initiative, which operates in partnership with Masdar's Women in Sustainability, Environment and Renewable Energy (WiSER) initiative, the World Economic Forum Global Project on Climate Change and the Global e-Sustainability Initiative. Applications for the 2016 Momentum for Change Awards are being accepted from 19 February until 25 April 2016 at: http://momentum.unfccc.int/
